

Quotes from your constituents about utility transparency and accountability needed in Indiana

Indiana utility customers deserve transparency and accountability. As bills rise and more Hoosiers struggle to keep up, monopoly utilities continue to profit at their expense.

Efforts to rein in what they can charge customers have been repeatedly undermined, as these companies find ways to skirt the rules and exploit loopholes. It's time for change.

Without concrete transparency and accountability, utilities will continue using customer payments to build influence to keep the rates high while leaving the public in the dark.

Almost 2,000 Indiana residents and counting have contacted their legislators, calling on policymakers to hold Indiana utilities accountable and prioritize the interests of ratepayers.

In the next legislative session, we call on you to serve the people of Indiana by requiring transparency and accountability in utility uses of ratepayer dollars.

Hoosiers deserve affordable and reliable electric service.
